valuation date (before creation/redemption of units), gives the unit price of the fund under consideration.

In case the valuation day falls on a holiday, then the exercise will be done on the following working day.

We reserve the right to value less frequently than daily in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances we may defer valuation of assets and extent of deferment period will as per IRDA's (Insurance Regulatory and Development Authority) directions at that point of time. Examples of such circumstances are:

- a) When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed otherwise than for ordinary holidays
- b) When, as a result of political, economic, monetary or any circumstances out of our control, the disposal of the assets of the unit fund are not reasonable or would not reasonably be practicable without being detrimental to the interests of the remaining unit holders.
- c) During periods of extreme volatility of markets during which surrenders and switches would, in our opinion, be detrimental to the interests of the existing unit holders of the fund.
- d) In the case of natural calamities, strikes, war, civil unrest, riots and bandhs.
- e) If so directed by the IRDA.
